The May number of Toilettes, which has just reached us, is a handsome book. It gives early indication of what we may expect to see worn in the early summer by matron and miss; visiting, reception, walking and bridal toilettes. Such eminent authorities as Worth and Felix, Doucet, Montaille and Stauffer are here represented, and no end of beautiful and original innovations prove that fashion is not retrograding, though it may seem at times to be leaping backwards half a century or more Novel materials and color effects, too, are constantly brought into use, and nothing would seem to be more impulsively aggressive than Dame Fashion as viewed through these pages. Yet there is method and artistic taste discernible in every change, and while they continue to render the world more beaut ful they tend to make life more attractive, and John Brown told the truth, where lend additional zest to existence. No less than 18 original designs of new puff sleeves alone are here denoted. A FEARFUL WRECK.

A British Bark Goes Ashore and Her

Crew is Drewned.
London, Dec. 31.—The British bark Osseo was wrecked in a gale at Holyhead yesterday morning, and with her perished her entire crew of twenty-six men. The Osbeo was driven ashore back of the Holyhead breakwater. Her signals of distress were first heard by the coast guard about 4 o'clock in the morning. At that time it was pitch dark, and great waves were washing over the breakwater. In spite of the danger of being washed into the sea, the guard proceeded along the breakwater, and, having rigged up the rock-et apparatus, began firing life lines in the direction of the wreck. The faint light of the rockets soon disclosed the fact that the vessel had broken in two amidships, and that the main mast had fallen, crushing the lives out of several of the crew. A few survivors could be seen clinging to each half of the vessel, and their piteous cries for help could be heard above the roar of the storm. After many failures the coast guard succeeded in firing a line over the wreck, but by that time all on board had perished. A lifeboat vainly tried again and again to approach the wreck. Not a vestige of the bark could be seen to-day, and there is no prospect of any salvage. The Osseo was a bark of 1,399 tons. She arrived at Falmouth on December 15 from Taltal, and had been ordered to Anderson. Reports of stormy weather continue to be received from all parts of Europe. Numerous small wrecks and casualties are reported in Great Britain and Ireland. Many lives were saved by lifeboats. A severe gale is blowing on the Baltic, and navigation is suspended at Copenhagen.

Understanding Between Lexow and Supt. Byrnes. New York, Dec. 31.—In an interview with a Tribune reporter, Dr. Park-hurst was asked: "Have you an idea from reading the testimony of Supt. In fact, I am free to say that I knew some time ago that there was an understanding between the committee and Mr. Byrnes. I am not prepared to say that Mr. Goff had any knowledge of it, but the understanding involved the manner in which was to be treated. what the understanding was I decline to state, but I knew that Byrnes was not to be badly damaged. I first made up my mind that there was an under-standing when I heard that Byrnes was supplying the committee with information. My sentiments in regard to Mr. Byrnes are the same now as they always have been. I have been fighting Mr. Byrnes three years, and he has been fighting us, and I am firmly of the conviction that if I care for the safety of our organization I can-not afford to become allied with the enemy in any way, shape or manner. I look upon Supt. Byrnes as a consti-uent part of a system that is corrupt, and for that reason I do not believe it is wise to have any dealings with

A NEW LEADERSHIP.

What the negro wants in this busy American body-politic is a new leadership. That the old representatives of the race have proven themselves to be demagogues, hypocrites, and knaves. Their life-work has been the accumulation of wealth for no other use than to disgrace their memory. That negro leadership has been a failure and a mockery to civilization is but a mild way to express it.

The signs of the times demand a new leadership; a leadership which should instill in the minds of men those high and voble qualities that would tend to elevate the masses, if possible, above the common level, and subordinate that selfish and personal|aggrandizement that seem to characterize men who arrogate to themselves supernatural powers that entitle them to leadership. Had the present ad vancement of the race depended upon men who had been looked upon as leaders, what would have become of this thrifty and progressive class, who by their own industry are becoming important factors, and will, no doubt, constitute a new leader-

We have worn the mask of blindness long enough; we have subordinated every principle that would advance our own interest for others. We now throw off the mask of madness and the shade that darkens our eyes and look for a new field of labor and honest workmen.

The crafty politician, the quasi leader, the cringing demagogue, the grining knave must retire from the field. Ever since reconstruction these blood thirsty knaves have disgraced the mem ory of those who gave the Negro freedom and liberty.

The emancipation of the Negro placed the crafty politician and white element that claimed to be his friends in control of the gov ernments in the South 'till every State government under their control was abused and bankrupted by mismanagement. The masses of the poor and ignorant Negroes were held to blame: then came the reign of terror; the ku-klux klans, otherwise known as midnight assassins made the homes of this class a hell.

The office-holders from the governor down to the messenger eventually left the States, and the poor forsaken Negro could do nothing but stand and look at his fleeing leaders.

Where are they to day? What has become of their boasted eloquence and knavish logic that could be heard on the rostrum of the South? They are here in the North at long range telling their brethren in the South what to do and how to obtain control of the State governments that have been disgraced and once demoralized. It is now time for the young Negro of the South to rise and proclaim a new leadership,

While the BEE doesn't indorse the methods reported that were resorted to to catch Maxwell, it is left to be seen whether such methods were resorted to as reported.

The department claims to be in possession of sufficient facts to convict Maxwell and his lady friend, and if they insist that they are not guilty why did they forfeit their collateral?

District Attorney Mullowney informed a Times reporter one morning this week that the District Attorney's office was responsible for the arrest of this man and his lady friend, and if they were not satisfied he would reopen the case.

Inspector Hollenberger and his corps of detectives with put two exceptions are honest men. What makes the case against Maxwell more serious, is that he is a psalm singer and if "spy-glass" meth ods were resorted to to catch them, Dectective Proctor is to be commended. So long as the police department confined its ar. rests to the Negroes in Louse, Chinch, and Hog Allies and Bloodfield, these pious hypocrites psalm singers, and Christian Endeavors remained very quiet and applauded the police depart. ment and declared that the city should be cleaned up. These Christian hyhocrites would have the out sideworld to believe that all the sin in Washington was committed by the Negroes.

Indeed, none but Negroes have been arrested, while the psalm singers looked on in Venice and remarked that our police depart. ment was a model institution, but when one of these psalm singers was caught the edict went forth that the entire police department must be abolished; Major Moore must be dispatched for.

It is all unnecessary for the Commissioners to order an investigation of the Maxwell case. If these psalm singers want an investigation THE BEE would suggest that an investigation be made to ascertain if there are any more white people on the Maxwell order.

If the local press is really sin cere and want a few more of these psalm singers brought to light, THE BEE will be pleased to furnish the information

If the advoca'es of the rights of these pious hypocri es don't want the light turned on, they must let the Negro alone; or if all are to be treated alike THE BEE will render the necessary

WHY SHOULD IT BE?

There is a desire on the part of some one in the Police Department to ignore the claims of colored applicants for the police force. It is reported that several colored men presented themselves for medical examination a few weeks ago and to the surprise of their friends their certificates were returned unsound for the applicants.

It was surmised that there was some mistake about these men, and to be satisfied their friends had them examined by Dr. C. B. Pur-

ination that no other physician would give to applicants. His report to the District Commissioners was that the men] who were reported "unsound" were found upon thorough examination to be perfectly sound.

The Doctor made such an exam-

What disposition the Commis sioners intend to make of these cases is not known, but it is understood that the colored citizens will ask Congress to make a change in the mode of examination of applicants for the police force.

Marsters sailed from New York March 29 on a voyage to narara, and returned to port yesterday afternoon in search of police assistance and the services of a surgeon. On the night of March 29, about sixty-six miles east of Montauk Point, Capt. McNeil came on deck to take a look at the weather, which was some what hazy at the time, and called to the mate to bring the fog horn. The captain had hardly stepped outside the companionway when Seaman W Holzheur, who was at the wheel, drew a revolver from his pocket and fired five shots in rapid succession directly at the captain, every one of which took effect. One ball entered the captain's face just below the right eye; one hit him in the neck, a third in the thigh, another in the left shoulder, and the other in the arm. The captain, who was dazed by the sudden the attack, and the rapid firing of the revolver, fell prostrate on the deck. The mate rushed to the res of the master and disarmed the wouldbe assassin, securing him before he could do further damage. Capt. Mc-Neil's wounds bled profusely before they could be bandaged by his wife, who was on board. Although he is very weak, none of the wounds is considered dangerous. Holzheur was immediately put in the irons and confined in the lazaretto. He is a native of Germany, about twenty-nine years of age. When seen yesterday after-noon he stated that he had no recollecwhatever of shooting Capt. Mc Neil, and appeared to be dazed. was turned over to the police authorities of Stapleton, S. I.

Schmuda Hoped to Kill Himself and the Man Sent to Arrest Him. Dunkirk, N. Y., April 2. - Joe Schmuda, an Austrian, put a dynamite cartridge in the stove of his residence on Pangolin street, this city, last night and blew himself up. In his own case he has probably succeeded, but Policeman Walters, although badly shaken up and slightly bruised, says he is all right. When the explosion occurred the policeman had his hand on the door. The next instant he found himself on his back in the street, forty feet away. Schmuda was taken from the ruins to Police Headquarters. where a surgeon discovered that the wounded man's body was a repository for fragments of the stove, tin uten sils, wood and ashes of the weight of several pounds. Schmuda attempted to kill his wife and drove her from home early in the day, and the war-
